

Gelato Display Case

Polar

Double Ventilation

Polar is equipped with a "twin air blade" ventilation system that provides even cooling keeping all gelato pans at the same set temperature independently of their position inside the display cabinet.

The Polar display case has a pulsing heart - a powerful condensing unit that is semi-tropicalised for reliable performance even in hot, dry or humid conditions.

Approvals

ETL Classified to (ANSI/ UL 471)

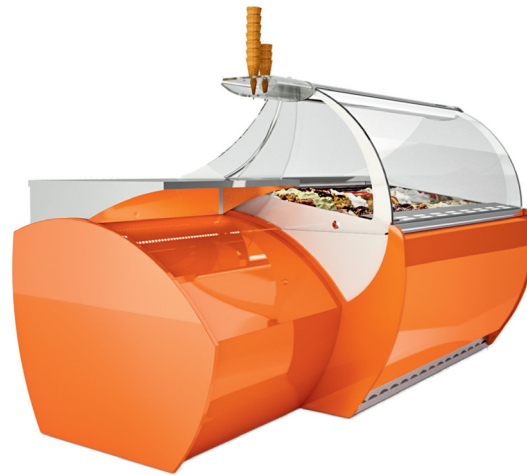

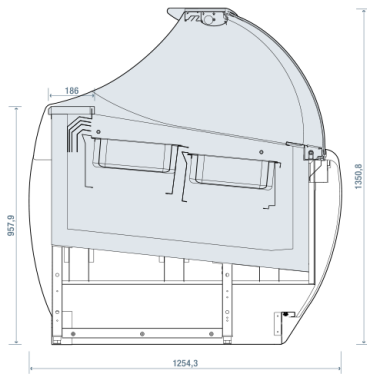

ETL Classified to (NSF/ANSI Standard 7)
